 - Manufacturing at the point of need
- **Base Operating Support Integrator (BOS-I) Enabler**
 - SOF Peculiar / Service Common Class IX Support
 - Joint Force Integration
 - Host Nation / Local National Support

PEOPLE | WIN | TRANSFORM

WHAT LOOKS DIFFERENT ON NEXT CONTRACT WAREHOUSE OPERATIONS

- **2016 RFP - Logistics Support Requirement:**
 - All inventory was “in possession of the contractor”
 - Totally managed by the contractor in GOLD
 - Government role was limited to oversight of contractor performance
- **2025 RFP - Logistics Support Requirement:**
 - Must meet DoD’s Financial Improvement & Audit Readiness (FIAR) Requirement
 - Defense Property Accountability System (DPAS) is SOCOM’s FIAR complaint APSR
 - Approximately 75% inventory will be managed by the GOV in DPAS
 - Expect touch labor to augment GOV DPAS workforce (Prime or 3rd Party - TBD)
 - Prime contractor will continue to manage non-DPAS inventory in GOLD (~25%)
 - Improved warehouse automation *may* be key requirement
